Fundermax

No matter whether it's furniture, facades, or interior design: where ideas and materials meet, you'll find Fundermax. As a global market leader in the field of compact panels and a manufacturer of high-quality wood-based materials and laminates, the company is proud to look back on a history spanning 130 years. The continued success is based on the highest quality, innovative and varied design, and sustainable production. Made in Austria—with great love for wood as a natural material, creations, and imagination.

- modern production facilities in Austria and Norway
- around 1,500 employees
- annual sales of €500 million
- part of Constantia Industries AG
- The Austrian Excellence Award (2018)

1 Sustainability and the Environment

Offering high-quality wood based compact, and HPL panels with various decors, Fundermax positions itself at the very heart of the architecture of a building. We design and manufacture a broad spectrum of products made from natural materials that are easy to work with, in order to provide architects, designers, facade designers, interior designers, and industrial companies with solutions that stand the test of time.

Fundermax has been processing natural materials with precision and love for 130 years. Today, we are manufacturers of high-quality timber composite materials and a global leader in compact laminates for both internal and external applications. Fundermax stands for nothing less than top quality and excellent design.

100% wood and paper

comes from sustainable and certified forestry management.

10,000 t CO₂

saved every year

100% green electricity

generated during production.

This and much more is what makes Fundermax a sustainable company, always looking to the future.

Sustainability Brochure

2 Exterior 2.3 | Essential Collection

Fundermax Exterior is synonymous with product quality, sustainability, innovation, and design freedom. We developed the overarching new Exterior 2.3 collection in collaboration with international architects and our experienced teams. In order to accommodate your project requirements, we divided it into two subcollections. In the Essential collection, the focus is on maximum choice of decorative finishes and efficiency. In the Pro Surface collection, it's all about design using surface textures and visual effects. For maximum design freedom, there's Fundermax Individual. Create your very own design using Fundermax custom printing or add accents by machining a design directly onto the material surface without the need for further processing. Whatever form your idea takes, the Exterior 2.3 collection from Fundermax opens up a whole world of design possibilities.

For you to create.

Exterior 2.3 Essential

Exterior 2.3 | Essential combines maximum decor choice with maximum size choice.

All of the decors in this collection are supplied in the following five sizes and with the NT surface:

- 2,800 x 1,300 mm = 3.65 m²
- 4,100 x 1,300 mm = 5.33 m²
- 3,670 x 1,630 mm = 5.98 m²
- 2,800 x 1,854 mm = 5.19 m²
- 4,100 x 1,854 mm = 7.60 m²

For details, see the delivery programme insert.

NT surface

A silky matte effect creates a delicate shimmer and, together with the fine hammered texture, the result is an aesthetic overall appearance.

Colour

Architecture means providing perspectives and having a powerful influence on public perception.

In our Exterior 2.3 | Essential Colour range, you'll find a full spectrum of colours to allow the message of the architecture to be conveyed in a stand-alone way that makes it one of a kind.

For you to create.

Nature

Whatever people put together in terms of colour, shape, and texture, the world around us has already long since created it in one form or another. There is so much to discover, and most of it will be found in the smallest details.

In our Exterior 2.3 | Essential Nature range, you'll find both bold and subtle wood textures and shades for your project.

For you to create.

A close-up image of a dark, almost black, wood-grained surface. The grain is vertical and shows a mix of fine, wavy lines and more pronounced, darker knots and swirls, giving it a rich, textured appearance.

0907 Graphite Flagship Oak

A close-up image of a dark grey wood-grained surface. The grain is vertical and features a complex pattern of fine lines and larger, darker, swirling knots, creating a sophisticated and textured look.

0908 Grey Flagship Oak

A close-up image of a light-colored wood-grained surface. The grain is vertical and consists of fine, straight lines with occasional small, light-colored knots, giving it a clean and natural appearance.

0925 Butterfly Hickory

A detailed close-up of the Fir Platinum wood texture, showing a light tan color with prominent vertical grain lines and numerous small, dark knots and imperfections.

0801 Fir Platinum

A close-up of the Thunder Maple wood texture, featuring a medium brown color with a fine, vertical grain pattern and subtle variations in tone.

0936 Thunder Maple

A close-up of the Marshland Oak wood texture, displaying a dark brown color with a vertical grain and a few larger, more pronounced knots.

5172 Marshland Oak

A close-up image of a dark, heavily textured wood surface, identified as Smoked Marvel Walnut. The grain is vertical and shows a complex, almost marbled pattern with deep, dark brown and black tones.

0869 Smoked Marvel Walnut

A close-up image of a dark wood surface, identified as Smoked Jazz Oak. The grain is vertical and shows a more traditional oak pattern with prominent, wavy lines and a dark, smoky finish.

0847 Smoked Jazz Oak

A close-up image of a dark wood surface, identified as Brown Flagship Oak. The grain is vertical and shows a classic oak pattern with prominent, wavy lines and a dark, smoky finish.

0909 Brown Flagship Oak

0932 Akro Terra

0824 Brown Bistro Oak

0901 Dark Rainbow Rosewood

A close-up image of a dark, rich wood texture with a prominent vertical grain pattern. The color is a deep, dark brown with subtle variations in tone and texture, giving it a natural, organic appearance.

0870 Dark Honey Marvel Walnut

A close-up image of a medium-brown wood texture with a vertical grain pattern. The wood has a slightly weathered or aged appearance with some darker, more pronounced grain lines and a few small knots or imperfections visible.

5173 Barrique Oak

A close-up image of a light-colored wood texture with a vertical grain pattern. The color is a warm, light brown or tan, with a smooth, slightly wavy grain that gives it a soft, elegant appearance.

0846 Caramel Jazz Oak

A close-up image of a wood texture with a dark, mottled appearance, featuring various shades of brown and grey, giving it a weathered and aged look.

0820 Hazel Heritage Oak

A close-up image of a wood texture with a warm, medium-brown tone, showing a clear vertical grain pattern and some natural wood knots.

0919 Ecuador

A close-up image of a wood texture with a light, warm-brown tone, showing a very clear and straight vertical grain pattern.

0935 Voyager Oak

A large rectangular panel showing a vertical wood grain texture. The color is a mix of light and dark brown, with prominent vertical lines and some darker, irregular spots, giving it a rustic appearance.

5171 Polar Oak

A rectangular panel showing a vertical wood grain texture. The color is a warm, medium brown with subtle variations in tone and a smooth, slightly wavy grain pattern.

0868 Caramel Marvel Walnut

A rectangular panel showing a vertical wood grain texture. The color is a dark, muted brown with a fine, consistent grain pattern and some lighter, vertical streaks.

0923 Enigma Oak

0125 Natural Oak

0931 Akro Almond

0927 Creek Larch

0924 Taurus Oak

0922 Amazon

0803 Tyrol Pine

The background of the top half of the page is a close-up photograph of a wood surface with a warm, golden-brown hue and a prominent vertical grain pattern. The texture is natural, with some minor knots and variations in color.

0601 Sun Pear

The background of the bottom-left section is a solid, uniform brown color with a subtle, fine-grained texture, resembling a high-quality leather or a matte-painted surface.

0168 Akro Rust

The background of the bottom-right section is a solid, uniform dark brown color with a subtle, fine-grained texture, similar to the one in the previous section but with a slightly darker shade.

0169 Akro Ruby

A large rectangular swatch of a dark, rich brown color with a fine, vertical wood grain texture.

0160 Dark Akro

A large rectangular swatch of a medium brown color with a fine, vertical wood grain texture.

0161 Light Akro

A large rectangular swatch of a warm, golden-yellow color with a fine, vertical wood grain texture.

0162 Akro Sahara

Material

Witness the unyielding power of nature, strong accents, and smooth textures in natural harmony, moving within itself, constantly in motion. It's a fascinating interplay of texture, colour, and material.

In our Exterior 2.3 | Essential Material range, you'll find designs that reveal something new every time you look at your project.

For you to create.

0496 Colosseum

0421 Venus

0426 Loft

0394 Moonwalk

0861 Grey Eclipse Quartzstone

0497 Stonehenge

A close-up image of a textured surface with a mottled, aged appearance. The colors range from light beige to dark brown, with prominent vertical streaks and a rough, weathered texture.

0793 Patina Tin

A close-up image of a dark, textured surface. The color is a deep, dark grey or charcoal, with a fine, grainy texture and subtle variations in tone, giving it a sophisticated, stone-like appearance.

0027 Prado Agate Grey

A close-up image of a light grey, textured surface. The texture is fine and uniform, with a slightly mottled appearance, giving it a clean, modern look.

0026 Prado Alu Grey

A close-up image of a light beige, textured surface with a fine, granular appearance, characteristic of sandstone.

0808 Desert Rose Sandstone

A close-up image of a dark, charcoal-colored surface with prominent, vertical, wavy lines and a slightly rough texture, resembling a rock or stone pattern.

0406 Rockstar

A close-up image of a dark, textured surface with a complex, layered appearance, featuring various shades of brown and black, giving it a rich, organic look.

0805 Cosmopolis

0794 Patina Bronze

0429 Corro

0028 Prado Brown

0603 Ardens

0798 Tambora

0386 Blues

0159 Akro Black

0804 Metropolis

0799 Black Jack

A large, dark, textured surface with a mottled appearance, featuring various shades of dark grey and black, giving it a rugged, cave-like texture.

0428 Cave

A vertical panel with a light-colored wood-grain texture, showing natural wood patterns and a warm, neutral tone.

0158 Akro Grey

A vertical panel with a dark grey, textured surface that resembles concrete or stone, with subtle variations in tone and a slightly grainy finish.

0894 Black Pearl Concrete

A close-up photograph of a light gray limestone surface with a fine, granular texture and small dark specks.

0903 Urban Galaxy Limestone

A close-up photograph of a dark gray limestone surface with a fine, granular texture and small dark specks.

0902 Black Stingray Limestone

A close-up photograph of a dark gray slate surface with a fine, granular texture and small dark specks.

0898 Porto Nero Slate

3 Products

Everything Max Compact Exterior can do

Max Compact Exterior panels are thermoset high-pressure laminates (HPL) that meet the requirements of EN 438-6, type EDF, and are produced in high-pressure lamination presses at high temperature.

Dual-cure acrylic polyurethane resin ensures highly effective weather protection, making it particularly well suited to balcony and facade cladding.

For extreme weather and environmental conditions*

Design freedom and efficiency

Installation and Maintenance

* Standard and actual values: www.fundermax.com

Composition of Max Compact Exterior Panels

The 'Biobased Product' label highlights biobased materials that contain a significant proportion of biomass by certifying their content of biobased materials.

A minimum proportion of biobased material is defined for each product family (60% for facade cladding).

FSC certification guarantees the origin and traceability of timber and paper products with a minimum amount of timber.

Certified products come from sustainable, socially responsible, and economically viable forestry management along the entire supply chain.

PEFC certification guarantees the origin and traceability of timber and paper products with an obligation for improvement.

Certified products come from sustainable forestry management that respects biodiversity and the vitality of ecosystems.

Max Compact Exterior F Quality

A high-quality construction product bearing the CE label for use as durable balcony and facade cladding. The panels are thermoset high-pressure laminates (HPL) that meet the requirements of EN 438-6, type EDF, with the most effective weather protection thanks to dual-cure acrylic polyurethane resin.

Exterior 2.3 Essential

Surfaces*

- NT

Sizes**

- 2,800 x 1,300 mm = 3.65 m²
- 4,100 x 1,300 mm = 5.33 m²
- 3,670 x 1,630 mm = 5.98 m²
- 2,800 x 1,854 mm = 5.19 m²
- 4,100 x 1,854 mm = 7.60 m²

Thicknesses

Thickness	Tolerance (EN 438-6, 5.3)
• 2.0 mm	± 0.2 mm
• 4.0 mm	± 0.3 mm
• 6.0 mm	± 0.4 mm
• 8.0, 10.0 mm	± 0.5 mm
• 12.0, 13.0 mm	± 0.6 mm

Core

- F Quality
- Flame-retardant
- Brown colour

* For the best possible appearance of the facade cladding, installation on an aluminum subframe is recommended. Timber is advised against, as an uneven surface can lead to a wavy appearance.

** Panel sizes with tolerances of +10–0 mm (EN 438-6, 5.3) are standard sizes—if absolute size and angle precision is required, cutting around all sides is recommended. Depending on the cut, the net measurement reduces by approx. 10 mm.

Options

Max Compact Exterior F Quality

Max Compact Exterior panels are supplied with decors on both sides as standard. The core is made to be flame-retardant, the surface is lightfast, and the dual-cure resin is extremely weather-resistant.
(Fire Test EN 13501-1, B-s2, d0)

Composite elements

To fabricate composite elements, the Max Compact Exterior F-Quality panels can also be supplied with reverse side sanded.

Max Compact Elements

Machining Service

Fundermax offers the option of cutting the panels and CNC machining. Using state-of-the-art systems, virtually all requirements can be fulfilled, from simple hole drilling for mounting facade panels to intricate machining for balcony components.

Consultation

Make the most of our architect consultation service and the extensive track record of our application technology. Certifications, approvals, BIM objects, and technical information can be found in the Downloads section on our website or via the QR code. Materials and decorative samples can be ordered from our website around the clock.

You can go directly to the technical information for Exterior via this QR code

Tip

For a consistently light design for the interior of balconies, Max Compact Exterior panels can also be made with a white (reverse) side (0890 NT – Balkonweiss). The combination of different decors means the stated fixing distances should be reduced by at least 15%.

1) In accordance with EN 438-6

2) Typical values are given as an example only and may not be consulted in the case of any possible liability of Fundermax (they are not confirmed, guaranteed values). Fundermax only guarantees compliance with standard values.

* Custom decorative printing: artificial weathering EN ISO 4892-2: 3,000 h; Assessed based on the gray scale EN 20105-A02: 3

** The exception is the Podio balcony flooring panel, Euroclass B-s2,d0 (6–20 mm)

Other and up-to-date tests and approvals can be found in the Downloads section on www.fundermax.com.

Please take into account any currently valid building regulations; we accept no liability in this regard.

Please check whether your construction project complies with the requirements to effectively restrict the spread of fire (e.g., Austria: OIB RL 2, Germany: Model Administrative Provisions – Technical Building Rules, MVV TB, etc.)

This brochure is intended for specialists who are trusted to adhere to the relevant standards, technical regulations, legal requirements, and relevant guidelines relating to building products. Rules have been painstakingly revised, however, we would like to point out that responsibility for proper planning always lies with the planner, and responsibility for correct installation lies with the contractor.

4 Fundermax Individual Solutions

Application Engineering

Fundermax has been producing compact panels in Austria for over 50 years. During this time, we've advised and worked with business partners on countless projects. We collaborate with all major system partners in the field of ventilated facades and balconies, and in doing so are constantly expanding our knowledge, which we're then happy to put into the planning and realization of your project. Our experts in the area of building approval and certification deal with ensuring all relevant certifications are up to date and new ones are added. Furthermore, through our in-house services for cutting and CNC machining, we have links with all prominent tool suppliers so that we can give you the best possible advice when it comes to machining.

For you to create—Maximum design possibilities with Fundermax Exterior

Facades are a critical architectural element, giving a building its symbolic expression and conveying the intention of the architect. At the same time, they serve as a backdrop for the public space and urban life.

With its huge range of highly weather-resistant and optimally lightfast colours, decors, and surfaces, the Fundermax Exterior collection allows for an extremely broad spectrum of design possibilities. Fundermax custom printing offers maximum design freedom, as well as the option of choosing any shape and machined engraving, which can be designed using modern CNC systems.

 Client: Sarka Kata
 Design: Toth Project
 Designer: László Tóth

Custom printing

With Fundermax custom printing, everyone has the freedom to design facades, balconies, and other external features that are creative and unique. Your design can either be applied to individual panels, or—as in the example shown—across several panels. This is the ideal option for large-scale images and visual impact.

Fa. Hauk factory

The new factory is a contrast to the original neo-classical facade of the Vilém Pelly spinning building, which had to be torn down after a major fire in 2020. The historic spinning building was a landmark in the town for more than a century.

The task of Graphite Studio was to give the large new, functional facade of the factory a human scale.

The unique and personalized design suits the surroundings of the site and includes diamond shapes in reference to the company logo. A total of 538 digitally printed Fundermax panels were used to create the whole external facade.

Fundermax custom decor options

A) As panel

B) Cut and numbered in preparation for installation

On request and using our in-house Compact Elements machining service, we're able to supply Fundermax custom printed panels ready for installation: cut, numbered, and sorted according to your requirements.

Find out more via this QR code
or at www.fundermax.com

Design freedom for facade layout and surface design

Thanks to modern CNC systems, it is possible to design creative facade layouts and add accents using machined engraving. Fundermax Exterior panels are uniform in their composition, so sealing the edges isn't required.

Make use of our decades of experience in the machining of compact panels and order your project so that it's pre-sorted and ready for installation.

5 Exterior Pro Collections

Exterior Pro 2.3 Surface

Exterior 2.3 | Essential offers maximum choice of decors and maximum efficiency with the NT surface.

For designs with surface textures and visual effects, you'll find a selection of Exterior 2.3 | Essential decors with the Gloss, Sky, and Paragon surfaces in the **Exterior Pro 2.3 | Surface** collection.

Exterior Pro 2.3 | Surface

NG Gloss

NP Paragon

NY Sky

NG Gloss

Combined with solid colours, the impact of NG Gloss is bold and expressive, while with wood and other material effects, it is exclusive and elegant. The surroundings are incorporated into the design through the high reflectivity of the surface, adding to its appeal.

NY Sky

Convincing depth effect and pleasant feel—this texture is spirited, raw, and natural, and complements the range of surfaces perfectly.

NP Paragon

This matte surface with anti-finger print technology is calming and self-assured. This is highlighted by the pleasant and high-value feel of NP Paragon.

Exterior Pro 2.2 Podio

Weatherproof, slip-resistant and scratch-resistant, these are just a few criteria that our specially developed balcony panel Max Compact Exterior Podio with Hexa surface meets. Due to the easy installation by screwing or gluing as well as the slip resistance according to R10 DIN 51130 and DIN 51097 it is perfectly suitable for balconies, stairs and landings. Because of the selection of different decors, the plate leaves nothing to be desired.

Exterior Pro 2.2 | Podio

Exterior Pro 2.2 Authentic

Each decor of the Authentic Collection is available in three surface finishes:

- NT
- NY
- NH

Exterior Pro 2.2 | Authentic

Lovers of brown and natural tones can now enjoy three completely new decors, all part of the Authentic Natura (AUTN) family.

Authentic Mocca

Sometimes stronger, milder, darker, lighter—all in all, Authentic Mocca is a more than tasteful composition.

Authentic Pecan

With pecans, the treasured content is protected by a resistant shell. The same is true of a building's interior and facade. By using "Authentic Pecan" an aesthetically pleasing look can be achieved.

Authentic Caramel

Facades in a "salted caramel look" range from golden yellow to honey brown. This decor was inspired by the widely loved caramel candy with its different shades of colour.

AU01 Authentic Mocca

AU02 Authentic Pecan

AU03 Authentic Caramel
